

My Coyote Myth

Name:

Date:

This story explains the arrangements of some of the stars in the sky and gives a reason for the meadowlark's song. It is also a tale of how Coyote tricks some of his friends so that he can become more famous. Could you write a similar legend?

Can you think of something else in nature which Coyote might be responsible for?

How will Coyote try to trick his friends in your story? Will he be succesful?
