Circle	Parallelogram	Isosceles triangle
Hexagon	Right angled triangle	Pentagon

<p>I have 4 equal sides. All angles are 90°.</p>	<p>I have 4 sides. All angles are 90°. Opposite sides are equal.</p>	<p>I have 3 sides. All sides are equal. All angles are 60°.</p>
<p>I have no straight edges.</p>	<p>I have 4 sides. Opposite sides are equal and parallel.</p>	<p>I have 3 sides. 2 angles are equal. 2 sides are equal.</p>
<p>I have 5 sides and 5 angles.</p>	<p>I have 3 sides. One angle is 90°.</p>	<p>I have 6 sides and 6 angles.</p>

Teacher notes:

Laminate and cut up the cards in preparation for this activity. Children can work in pairs or small groups to:

1. Match the shape and name (pages 1 and 2).
2. Match the shape from the properties (pages 1 or 2 and 3).
