

# My Online Gallery based on Andy Goldsworthy

by Jenson

This is my first one that I have created the ones in this slide show I am showing are art designs by Andy Goldsworthy this one is a wooden circle and you twist the stick on top and it spins around.

On this one the stick spins and the water makes a whirlpool and the wood floats in the air .

On this one it is like his one with leaves but mine is smaller and it has two colours. Also this one has a trail of leaves behind it.
